

Mayor of Randomville

Who do you want to elect as Mayor of Randomville?

Candidates/Options: Select candidates/options according to your preferences by ticking the box next to the name.

QR-Code: Scan this QR-Code in the verifier application to start the verification process.

	<input checked="" type="checkbox"/>	c5	<input type="checkbox"/>
John Doe	<input type="checkbox"/>		8c
Jane Doe	<input checked="" type="checkbox"/>	11	8b
did not vote	<input type="checkbox"/>	60	27

Ballot Identifier: unique identifier for each ballot

304128db2af41797563fd8387f7b80ac3b75767554c9bc2cb20b8174894baaf6

Short codes: Unique values to verify ballot encryption and the selected options.

Column selection: Select one of the two columns. The column you choose determines the set of short codes that are published on the public bulletin board. For example, if you choose the first column, the selection "11" will be displayed in the verifier application. The second (unmarked) column will be published as a spoilt ballot, which allows you to verify that the ballot has been properly constructed. In this example, the codes in the second column will be published together with the corresponding option name, which you can verify in the verifier application.
